DETAILED ACTION

Page 2

- Applicant had elected without traverse the claims 1-3, 9-13, 20-22, 28 and 32 (Group I).
- 2. Rejections of claims 1, 2, 9 and 32 under 35 USC § 101 have been overcome by Applicant's amendment.

Allowable Subject Matter

3. As stated in the First office Action, claims 1-3, 9-13, 20-22, 28 and 32 are in condition for allowance.

The following is a statement of reasons for allowance:

Referring to the instant claims, the following prior art has been considered:

- U.S Patent No. 5.583.941 to Yoshida
- U.S Patent No. 6.603.864 B1 to Matsunoshita

Referring to the independent claims 1,2 and 9, both Yoshida and Matsunoshita teach embedding the user ID on multimedia content and on the image. However, neither of the prior art of record teach or remotely suggest transforming a user ID using the following algorithm:

- calculating the <u>plurality</u> of residues, taking a plurality of integers relatively prime to each other, as moduli, with respect to user ID
- generating a plurality of component codes respectively expressing the residues obtained in the residue calculation

concatenating the component codes to generate the code to be embedded

Referring to the independent claim 9, Yoshida and Matsunoshita do not teach or suggest an algorithm for calculating the minimal number of components (k) needed for generating a code to be embedded.

Therefore claims 1-3, 9-13, 20-22, 28 and 32 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
